

# VPM-5 SmartPirani™ Evaluation Kit

Ultra-wide range Pirani / piezo vacuum transducer

$1 \times 10^{-6}$  to 1,333 mbar /  $7.5 \times 10^{-7}$  to 1,000 Torr

Plug-and-play transducer kit with USB interface, power supply and software.

The VPM-5 SmartPirani™ Vacuum Transducer Evaluation Kit with USB Connectivity enables quick and easy evaluation of Sens4's high-performance, next-generation MEMS Pirani gauge.

The kit consists of:

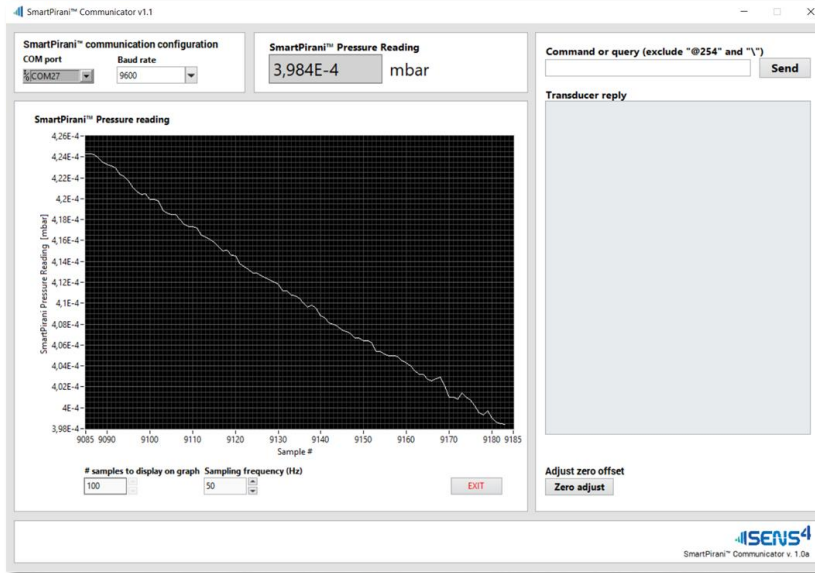

- SmartPirani™ transducer with KF16 flange and RS-232 interface
- USB to RS-232 converter with power supply and cable
- SmartPirani Communicator software (digital download)

While the kit is intended for evaluation prior to system or equipment integration, it can also be a useful tool to program and configure transducer parameters like setpoint settings when used in OEM equipment.

## Easy to use software

The free SmartPirani Communicator software provides real-time vacuum pressure measurements for on-screen visualization. The software can also be used for programming transducer parameters and settings.

## Order guide

Part number	VPM-5 evaluation kit	Price EUR	Price USD
VPM-5-EVL1	VPM-5 Transducer, no relays, DN16KF, USB interface, wall-plug 90-230 VAC power supply <sup>(1)</sup> and software	345.00	385.00
VPM-5-EVL2	VPM-5 Transducer 3 relays, DN16KF, USB interface, wall-plug 90-230 VAC power supply <sup>(1)</sup> and software	395.00	440.00
VPM-5-EVL3	VPM-5 Transducer no relays, DN16KF, USB interface and power supply and software	345.00	385.00
VPM-5-EVL4	VPM-5 Transducer 3 relays, DN16KF, USB interface and power supply and software and software	395.00	440.00

(1) Power socket blade for North America, Europe, United Kingdom and Australia blade included.

## About

Sens4 develops, manufactures, markets and distributes vacuum, pressure and temperature measuring equipment for industrial applications worldwide. Our products are designed, engineered and manufactured in Denmark to the highest quality standards. Our mission is to continuously endeavor to provide customer centric state of the art measurement solutions.

Our passion | Your value™
